

Foundation Stage Weekly News

Friday, 7th July 2017

Look what we've been doing!

This week has been very busy in Foundation Stage! The children have now all had a visit in their new classroom with their new teacher and they really enjoyed speaking to our current Year 1 pupils about the sorts of things they will get up to next year.

The children loved their first ever

Sports Day and we hope you enjoyed watching it too! They did so well in their teams, at all the activities and enjoyed working with the older children in the school. They also enjoyed all of their races, especially the "Race for Life" when all our children took a detour and cut off part of the track!! We are so proud of them for all achieving a medal. We were all so pleased to see you stay and have a picnic with your children. This is a lovely experience for them and they enjoyed having lunch with you.

This week we had our final Family Learning Time and we hope you enjoyed looking at your children's books and helping them practise their phonics. It's amazing to see how far they have come since September!

We got to see our butterflies emerge from their chrysalises this week. The children were so excited about this! We were then able to release them in our garden!

Reminders and messages

Please could you check at home for any 'real' reading books that may belong to the school. We seem to have quite a lot missing.

We are low on boys and girls spare underwear in school. If you can please donate some to school it would be very much appreciated.

We will no longer be checking words and sounds. We will be collecting in all the children's folders, reading records and books on Friday next week. We will then send home a sheet with all the key words and sounds that they have learnt this year to practise over the holidays.

Have a lovely weekend!

Mrs Fisk & Miss Weller
