

Foundation Stage Weekly News

Friday, 12th January 2018

Look what we've been doing!

This week we have been working on our 'tricky teen' numbers. We have been watching the YouTube video 'teen number workout'. Google it and have a go at home!

We have also divided the children into groups for phonics. This will help us tailor the learning to the needs of the children. The children were very sensible when they went to their new groups!

The children did really well at getting changed for PE. We encouraged them to be independent and get dressed themselves. Most children did really well. If you know your child will struggle with this please practise at home. Especially putting tops and socks on the correct way. **Please ensure all clothing is labelled and that shoes are labelled too.**

Please continue to log on to Bug Club. We will only put new books on there when the children have completed the books by answering the 'bug questions'. We will be changing books on Tuesdays and Fridays from now on. We will give the children two reading books and one real book.

Tapestry challenge

We have been learning some traditional nursery rhymes, this has been exciting for some children who have never heard them before! Please could you send us a video of your child reciting their favourite nursery rhyme and we will share them in school.

Reminders and messages

If anyone could spare an hour or two to paint our two benches please could you let us know. Many thanks.

Please remember to cut up grapes length ways.

Does anyone have the following items they would like to donate for our classrooms?

Potted plants

Old herbs and spices

Old bunches of flowers

Small and large see-through plastic pots with lids

Small and large bookcases

Arm chair and small sofa

Tables and chairs – (full size)

Have a lovely weekend!
