

Foundation Stage Weekly News

Friday, 9th March 2018

Look what we've been doing!

This week we have been revising time and working on telling the time to o'clock and half past for some. We have also been learning the days of the week. We learnt a song to help us. You can find it on YouTube here:

<https://www.youtube.com/watch?v=mXMofxtDPUQ>. We are getting good at saying the days of the week by rote, but need to practise saying the day that comes after Saturday etc.

On Tuesday at 8.45am we have 'Family Learning Time'. We are going to focus on our garden project and we will explain what we are going to do and we have planned some activities for you to do with your child. If you can't attend, please try and get another member of your family/friend to come along. After this there will be a meeting about internet safety in the hall with Miss Weller. We hope to see you there, it will be really useful and will support you and your child with keeping safe online.

Tapestry Challenge

Can you practise writing your name in cursive, can you write your surname too? Maybe you could sing the days of the week for us?

Reminders and messages

A little Fox has lost her cardigan, it is named. Can you check your child's cardigans, thanks.

Please, please, please could you label your child's coats and jumper/cardigans. We waste so much time trying to get items back to their owners. Many thanks.

Have a lovely weekend!
